

G4S CANADA LEADER IN OIL & GAS SECURITY

Effectively managing risk in the oil and gas industry is critical to the growth of the Canadian and global economy. Success in the industry is dependent on ensuring safe and secure operations in compliance with regulatory, environmental and community guidelines. At G4S, we believe that in every security challenge within the oil and gas industry, there are opportunities to unlock hidden benefits that can positively impact growth and sustainability.

Across the country, we leverage our security expertise and deliver qualified personnel, industry-specific training, health and safety programs, technology solutions, and a corporate commitment to sustainable business practices. The knowledge derived from providing security to the oil and gas industry in diverse environments around the world enables us to achieve the best results for our customers.

We are proud to be a Canadian company servicing the security needs of Canadian institutions and the Canadian public. We work with thousands of clients across the country, and are the employer of choice for security professionals in Canada.

Our track record with the Canadian oil and gas sector is exemplary. We are partnered with industry leaders across the country, providing integrated solutions including: security personnel services, mobile patrol, canine support, incident investigation and management, and Health, Safety and Environment (HSE) Advisor coverage. We believe those in the oil and gas industry who take a holistic view of their security and safety environment are better able to mitigate risk, ensure compliance and manage their reputation.

Let us help you to see the opportunities that exist in the challenge of securing your world.

Security Personnel

G4S has unrivalled experience in delivering customized solutions to oil & gas clients. Our reputation is based on our extensive employee screening processes, our sophisticated training programs, and our dedication to outstanding customer service.

Secure Trax®

Built upon the latest mobile computing technology, Secure Trax® uses handheld units to provide detailed, reliable incident notification in real time, adding value to all areas of a client's organization.

RISK360™

RISK360™ is a web-based application that provides detailed analytics, is flexible and configurable, and can be adapted to any environment. It helps our clients enhance outcomes while mitigating risk.

need a secure solutions partner capable of operating in all conditions. remote sites and complex facilities, thus controlling unauthorized access, ensuring continued business success.

Video Systems

G4S has the knowledge and expertise needed to ensure safety through effective video observation. Our systems will monitor your premises even when you're not there, with a range of management, analysis and camera options.

Intrusion Detection & Access Control

Dangerous or restricted areas need to be protected against access by unauthorized personnel. Our intrusion detection and alarm systems will immediately identify any breaches of your secure perimeter, with alert protocols suited to your requirements.

Personal Locators

G4S offers a wide range of personal locators, using GPS technology to identify, track and monitor personnel and equipment, even in remote sites.

Risk, Compliance and Accreditation Audits

Inadequate security and safety can create serious losses, cause liability, drain profits, and damage morale. Risk management for security is an itemized process which ensures reasonable and cost effective steps are taken to protect you.

Corporate Social Responsibility (CSR)

We believe we have a duty to make a positive impact worldwide. Initiatives we support include improving children's lives, combating climate change, and safeguarding human rights.

Health, Safety & Environment (HSE)

We at G4S firmly believe that health, safety & environment (HSE) is a priority in all operations. We are committed to an aggressive HSE program to ensure progressive safety performance, zero worker injuries, and zero environmental incidents.
