

## G4S CANADA SECURING YOUR KEY ASSETS

**Retail businesses cannot thrive and prosper without a safe and secure environment for premises, stock, employees and customers.** In today's tough economic climate, and facing with diverse and often growing risks, all retailers are challenged to ensure the security of key assets, including people, takings, products and reputation.

G4S is Canada's leading security solutions company, offering integrated security services to clients in a wide range of industries. For our retail clients, we have developed an exclusive package of service offerings that fully integrates all aspects of the security program, including loss prevention, corporate security and investigations, labour disruption management and contingency planning, secure technology, and cash management solutions.

We are proud to be a Canadian company servicing the security needs of Canadian institutions and the Canadian public. We work with thousands of clients across the country, and are the employer of choice for security professionals in Canada.

G4S understands that true benefit from retail security is not gained simply by providing uniformed personnel at the storefront. We work with our clients to build integrated solutions that combine our knowledge of in-store security processes and technology with our knowledge of the cash cycle and the retail world. We help retailers improve efficiency, reduce inventory losses, provide a safer workplace for their employees and a better shopping environment for their customers.

Let us help you to see the opportunities that exist in the challenge of securing your world.

## Security Assessment & Optimization

G4S Risk & Compliance Services has decades of experience in providing clients with the comprehensive security solutions needed to control and respond to threats.

We have successfully worked with clients across a wide range of sectors, including retail locations across the country. Our expertise and knowledge allows us to partner with our clients, delivering tangible benefits within strict budgetary limits, and meeting corporate and legislative requirements.

For clients with existing security systems and procedures already in place, G4S's Risk & Compliance division offers complete system assessments. Audits cover all aspects of security-related matters, and make recommendations for future steps where deemed appropriate or necessary.

Additionally, G4S Risk & Compliance division can help improve your current security profile. Inadequate security and safety can create serious financial losses, increase liability, drain profits, damage employee/customer morale and damage your reputation. G4S will work with you to formalize a plan that protects your company against losses.
