

# RISK CONSULTING

## Intelligence Risk Services

G4S Corporate Risk Services offers a variety of Intelligence Programs and Products that are customized to suit our clients' needs. Our Global Risk Intelligence Center (GRIC) team performs intelligence analysis that focuses exclusively on identifying threats associated with your organization and determining the best counteractions.

### **INTELLIGENT RISK SERVICES**

G4S Corporate Risk Services offers intelligence capabilities from our 24/7 Global Risk Intelligence Center or with on-site embedded Intelligence Analysts.

#### **Travel Risk Management**

G4S integrates a mobile app with an Instant Security Overview (ISO) system to provide real-time safety and travel warning solutions, including alerts, security information and travel plans. Business travelers are a click away from security, safety and travel status updates, as well as local area SOS emergency response services. Central and local corporate security teams have an instant security support platform to access information 24/7 as well as locate and interact with business travelers.

- Situational Awareness Training
- Country/Regional Analysis
- Travel Security Assessment
- Travel Advisories

#### **Situational Awareness Dashboards**

To ensure near-real-time awareness, G4S provides reliable, customized dashboards to visualize and quickly identify areas of interest or concern based on topic or geographic location. Customized
